COURSES

Microsoft Programming Associate(JavaScript) (02/2021 - Present)

ecollege.ie

The Complete JavaScript Course 2021: From Zero to Expert! (10/2020 - 01/2021) ↗

Udemy.com

React - The Complete Guide (Hooks, React Router, Redux) (11/2020 - 02/2021)

Udemy.com

PERSONAL PROJECTS

Tesla Clone (10/2020 - 01/2021) ↗

- Created a replica of Tesla webpage using React from scratch. The project has modern website features like high quality images to appeal users to scroll down the page to implement call to action, avoiding outdated information sliders and highly responsive brand inspired.

Online Banking Interface (08/2020 - 09/2020) ↗

- Designed and developed an minimalist online Banking interface using HTML/CSS and JavaScript. The application allows users to login using valid credentials and displays account details including transactions history and current total balance of the account. Users can also transfer money to other accounts and request a loan from the bank through the application interface.

Analyzing user personality using Social media profiles (01/2020 - 05/2020)

- Designed and implemented a web application which successfully retrieves user's tweeter threads from the given Tweeter handle and performs text classification on the tweets using machine learning and categorizes the users into different personality type based on the Myers's Briggs Personality Assessment. The model achieved 75 percent accuracy; the application provides results similar to the results obtain from written personality assessments questionnaires.
